

A commitment is a lifetime goal. Youree Drive Middle AP Magnet School is a neighborhood school with a nationally recognized commitment to excellence. This commitment is evidenced every day in an educational environment that has fostered a love for learning since 1959.

We offer rigorous AP academic classes as well as numerous opportunities for students to get involved in campus groups and organizations. We are one of only 10 schools in the district selected to participate in a partnership with Discovery Education. This allows us to include engaging STEM based activities into all of our classrooms.

Youree Drive is a wonderful school with exceptional staff members, parents, and students. We will work every day to make learning exciting and engaging for all students and give them every opportunity to be successful middle school students and productive members of our community.
